

# Without You Here

by Ali Matthews (c) 2010

How would I smile without you  
who would I be  
drifting alone like an empty boat out on the sea

you are the sweetest comfort  
when the day is too long  
you will be my woolen blanket  
you'll be my favorite song

(chorus)  
oh and I don't want to know... how it would go  
Without you here (I would be lost without you here)  
Without you here

Where did you get all that patience  
It's something I've never seen  
you love me when I'm nice and easy  
you love me even when I'm mean

you are my ray of sunlight  
you are my world  
Heaven must be smiling on me  
cuz I feel like I'm the luckiest girl

oh and I don't want to know... how it would go  
Without you here (I would be lost without you)  
Without you here

(bridge)  
What can I say to make it clear  
I think I would slowly disappear  
cuz even a day without you here  
oh I don't want to know

guitar solo  
repeat chorus
